DESIGN: BÖTTCHER AND KAYSER

JOE is a series of soft, flexible seating furniture based on strong shapes, geometric curves, and clear lines. The centrepiece of the series is a circular pouf with slim legs. All seating elements are embraced by a light back wall that serves as a protective shell and creates comfort and privacy for relaxation or private conversations in hotel lobbies, lounge areas, libraries, or modern offices spaces. The soft backrest cushion provides maximum comfort. The family of seating poufs, sofas and armchairs are completed by a matching coffee table with the same floating appearance.

BASEL

DESIGN: BUSK + HERTZOG

Futuristic and fun
The clean lines and the simplicity of the design are striking, but a closer look reveals even more design details that give BASEL a very unique character. The lines of the seat are a fusion of several geometrical shapes that results in the unique shape that is both tight and soft at the same time. The characteristic backrest works as an integrated and discrete armrest and is an advanced 3-dimensional design element despite the minimalistic look.

A sofa with a personality.
VENUS is an elegant sofa with a build-in sleeping function. The simple and light steel frame runs along the backside of the sofa – a special detail that invites you to place the sofa in the middle of the room so the design can be enjoyed from all angles. The built-in armrests and soft backrest create maximum comfort, and in spite of the size, VENUS is easily transformed into a bed to fit adults.

Flexible and feminine.
ELLE is a flexible modular sofa with a soft and feminine look – round, organic and accommodating. The rounded back and armrests make it extremely comfortable. The sofa consists of two corner modules (right/left) and a centre module, which makes it possible to create a small couch or a large corner unit. It's not very deep and works perfectly in small rooms.

JASPER

DESIGN : BUSK + HERTZOG

Stylish and practical
The modern sofa JASPER has a contemporary design, ideal for both private homes and public spaces. The backrest design lets you sit in the “corners” of the sofa, offering many more ways to relax than the average sofa bed. As an extra hidden feature JASPER is easily converted into a comfortable bed for two adults.

LAZY

DESIGN: ANDREAS LUND

A new and simple principle. The intelligent design of LAZY is a result of a new and innovative way of thinking. The backrest of the sofa flips backwards in a single movement and becomes a part of the bed. With the light, vivid form and simple construction, LAZY looks both classic and modern. The base comes in ashwood natural or ash stained black.

CABALA

DESIGN: MÜLLER & WULFF

Arrange it your way.
CABALA is an intelligent module sofa program with
endless possibilities of arranging and grouping.

With a unique feature, the seat orientation can be
changed in an instant, and it's possible to create two
different seating directions at once – e.g. one to the
window and one to the fireplace, TV or art piece. You
simply push or pull the backrest gently to make it flip
to one side or the other. This integrated feature makes
it possible to sit on both sides of the base depending
on how the backrest is arranged.

This diversity makes CABALA perfect for hotels, mu-
seums, waiting areas and of course living rooms. The
round corners of the designs create a distinct look
with a modern edge, and the high-quality upholstery
details complete the look.
